Questions and Answers

CENTRAL WASTEWATER TREATMENT PLANT BSST TRANSFER PUMP REPLACEMENT PROJECT

RFB Specification No. **ES25-0092F**

All interested parties had the opportunity to submit questions in writing by email to Stan Rowden by October 13, 2025. The answers to the questions received are provided below and posted to the City's website at www.TacomaPurchasing.org. Navigate to [Current Contracting Opportunities](#) / *Public Works and Improvements Solicitations*, and then click *Questions and Answers* for this Specification. This information IS NOT considered an addendum. Respondents should consider this information when submitting their proposals.

Question 1:

Per drawing S01 detail 2, the top note calls for Sika Antisol-250W. The manufacturer Sika has indicated this product has been discontinued and without a water-based alternative to replace it. Typically, a curing product is not used with the Sikatop 122 Plus. Please advise if a cure product is needed and if so please provide an alternate option.

Answer 1:

This will be addressed in Addendum #1 that shall be issued later.

Question 2:

Drawing M05 note 2, spec 017400, and spec 017410 indicate to dispose of the BSST debris at the City of Tacoma Dock Street Decant Facility at 2301 E, B Street Tacoma, WA. This address cannot be located when mapping. Please confirm this is the correct address for disposal.

Answer 2:

This will be addressed in Addendum #1 that shall be issued later.

Question 3:

when at the Dock Street Decant Facility, what is the connection point for disposing of the debris? Will it be transferred back into the City system through a manhole or into a tank?

Answer 3:

This will be addressed in Addendum #1 that shall be issued later.
