1. Question:

The response does not clarify the question asked. The plans do not show that hatching for any hatching for any tree removal, shrub removal, or pruning. With this item being lump sum, I am asking where on the plans does it show these areas or is it missed so we can accurately price this scope of work.

Answer: It is not anticipated that trees or shrubs will need to be removed on this project. Pruning is also not anticipated and would only be required to allow construction activities. The standard detail is included as an aid in the event site conditions necessitated a removal that was previously unanticipated.
